Profile

I am a Front End Developer based in Toronto, focused on building creative and accessible websites. I have a deep curiosity about how things work creating a need to understand the "how" and the "why." This has helped me problem solve in my career, my hobbies, and while staying up to debug code all night. I am unreasonably obsessed with the desert, running, and modernist bungalows.

Experience

VOLUNTEER MENTOR

CANADA LEARNING CODE | 2018 - 2019

- Canadian organization intending to open doors in the tech industry.
